

nke electronics

nke electronics, created under the name of **MICREL** in 1984, is a company specialized in design and manufacturing of electronic equipment. Since 1993, **nke electronics** offers products and systems for oceanographic instrumentation, through its **nke instrumentation** department.

Knowledge

Thus **nke instrumentation** provides autonomous instrumented buoys and measuring stations to industrials, power generators, water suppliers, collectivities, scientists. . .

nke instrumentation responds with technical solutions adapted to all environments and requirements.

The teams of engineers and technicians bring all their skills in the in-situ measurements, transmission, storage and formatting data and also in designing floats and moorings as well as the integration of existing materials.

From design to manufacturing, site installation and maintenance in operational condition systems, **nke instrumentation** listens to your need.

Skill and knowledge

Area	<ul style="list-style-type: none"> • Lake • Estuary • Coastal and offshore • Opportunities (boat, ...)
Support	<ul style="list-style-type: none"> • Float and mooring • Station dock and float • Ships
Measurements	<ul style="list-style-type: none"> • Physico chemical parameters • Flow and wave • Channel temperature, • Meteorological parameters, • Pollution • etc ...
Transmission	<ul style="list-style-type: none"> • GSM/GPRS • UHF • Iridium • ARGOS
Processing the data	<ul style="list-style-type: none"> • Creating database • HMI
Operational income	<ul style="list-style-type: none"> • Intervention on site • Maintenance • Operational maintenance
